Sentiment Analysis of Tweets about US Airlines

Welcome to the Sentiment Analysis Dashboard! This Dashboard allows you to explore and analyze tweets about US airlines, providing insights into public sentiment, tweet locations, and specific reasons for negative feedback.

Use this dashboard to:

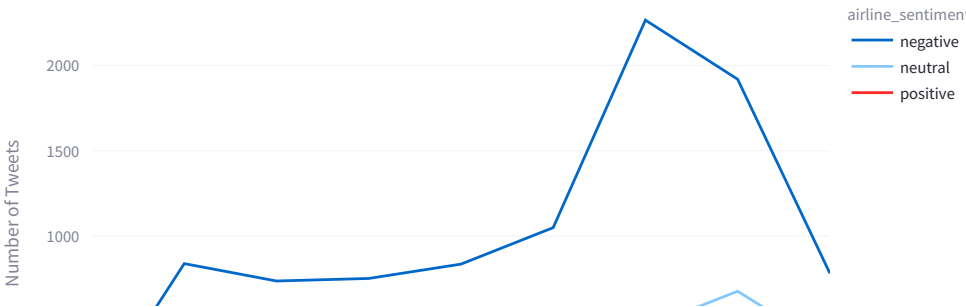

- Track sentiment trends over time.
- Visualize tweet locations based on the time of day.
- Analyze negative tweet reasons by airline.
- Explore tweet distributions by sentiment and airline.

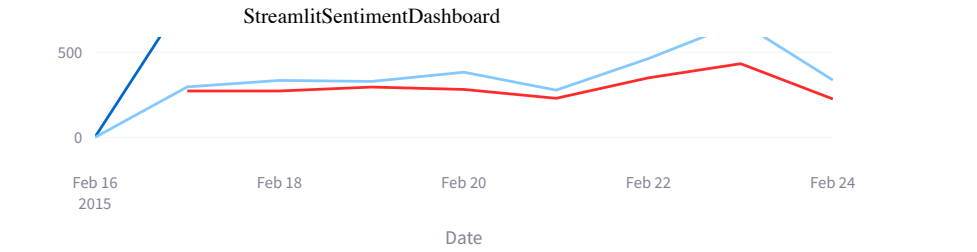

Feel free to interact with the filters in the sidebar to tailor the visualizations to your needs. Dive into the data to gain a deeper understanding of customer sentiment!
